READ! THE TRUE FACTS:
WHY SOME WOMEN LOOK YOUNG AT 50 WHILE OTHERS LOOK OLD AT 35
by Helena Rubinstein
Creator of Ultra Feminine, the unique face cream that reduces lines and wrinkles due to dryness, starts you looking younger today.

Just as some girls reach adolescence at 12, others at 14 or later, you and I know at what point skin shows signs of age at different times. Some begin to age at 25, others at 40. Research seems forever young. It depends greatly on individual skin and body chemistry, and each woman's supply of estrogen and progesterone, natural substances plentiful in youth, but diminished in later years (See chart.)

HOW ESTROGEN AND PROGESTERONE PRODUCTION DECLINES WITH AGE
Curves show relative levels of estrogen and progesterone during life of average woman. Sharp decline after 35 PROGESTERONE LEVELS ESTROGEN LEVELS
0 10 20 30 40 50 60 70 YEARS

Because there's no substitutes for nature's youth-giving properties once they are lost, we have sought to return to aging skin two of these natural substances, estrogen and progesterone, in Ultra Feminine cream. Ultra Feminine is the only face cream that contains both of these female requisites.

The substances cannot be stored by your skin, so results depend on daily use. Ultra Feminine works while in the skin...gives a daily replenishment of estrogen and progesterone. When you use Ultra Feminine regularly oil glands preochce at a more youthful rate! Skin cells can hold maximum moisture! You will find that lines and wrinkles due to loss of oil and moisture are reduced! The skin's surface becomes soft, smooth, younger skin tone is restored. Yes, your skin looks younger! No other face cream, at any price, has high-priced, can make these claims for effectiveness.

If you are 35 or older, I recommend that you begin Ultra Feminine treatment for your skin now! And I make this Guarantee: Use it faithfully for 30 days. Your skin must look younger, or your money back.

ONCE-A-YEAR SALE
